#### **Double Patenting**

Claims 6-10 and 17-28 have been rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-24 of U.S. Patent No. 6,752,993.

The Examiner has instructed that a terminal disclaimer in compliance with 37 C.F.R. § 1.321(c) or § 1.321(d) may be used to overcome a rejection based on non-statutory double patenting ground. Without addressing the propriety of the Examiner's rejection, and specifically the Examiner's interpretation of what the cited references teach or suggest, Applicants respectfully and properly defer addressing the present rejection until there is otherwise allowable subject matter in this application. Only then is it proper to assess the propriety of the Examiner's rejection in view of the potentially allowable claims. Accordingly, Applicants respectfully request that the rejection be held in abeyance until claims 6-10 and 17-28 are allowable in the present application.

Claims 1-5 and 11-16 have been rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-24 of U.S. Patent No. 6,818,223.

The Examiner has instructed that a terminal disclaimer in compliance with 37 C.F.R. § 1.321(c) or § 1.321(d) may be used to overcome a rejection based on non-statutory double patenting ground. Without addressing the propriety of the Examiner's rejection, and specifically the Examiner's interpretation of what the cited references teach or suggest, Applicants respectfully and properly defer addressing the present rejection until there is otherwise allowable subject matter in this application. Only then is it proper to assess the propriety of the Examiner's rejection in view of the potentially allowable claims. Accordingly, Applicants respectfully request that the rejections be held in abeyance until claims 1-5 and 11-16 are allowable in the present application.

Applicant asserts that the claims are now in condition for allowance and respectfully requests that a timely Notice of Allowance be issued in this case.

The Commissioner is authorized to charge any fee which may be required in connection with this Amendment to deposit account No. 50-3207.

Respectfully submitted,
